## MESSAGE FROM THE DIRECTOR OF STUDIES

Welcome to the NSTS English Language Institute and congratulations on joining the tens of thousands of learners who have followed English language programmes at our Institute over the past 50 years.

NSTS is known internationally for its leadership in English language teaching and ongoing development in learner-centred communicative methodology. We are committed to offering high quality education that meets both personal and professional needs. Our holistic teaching philosophy maintains focus on the learner as an individual. Join our courses for an effective and long-lasting learning experience.

Apart from excellent tuition, you will also receive the best personal support throughout your stay with us. After being welcomed on day one, you will complete a Placement Test so that we can assess your level of English. Individual learners also benefit from a specially-designed 'needs analysis', which identifies linguistic and professional needs and allows our academic team to plan and provide a custom-made course of studies.

NSTS believes in the best personal experience and outcome for every student, facilitated by experienced and highly-qualified teachers. NSTS uses the latest teaching techniques to help students reach their full potential. Learning English through different media and materials provides a dynamic, interactive experience.

The NSTS English Language Institute offers courses at all tuition levels, whether you are a beginner or already proficient and seeking to improve your skills. NSTS courses are based on the six levels of the Common European Framework of Reference (CEFR) for languages of the Council of Europe.

Progress will be monitored by our teaching staff throughout your stay. Through constant, focused individual attention and professional advice, you will be encouraged to exploit the full potential of your NSTS experience.

At the end of each programme, NSTS awards an English Language Institute Certificate, detailing the training programme undertaken and the level of proficiency achieved. The Certificate can be used for academic and professional profiles.

NSTS places utmost importance on education through enjoyment of life. Many of our students repeatedly recommend our language school to family members, colleagues and friends for academic integrity, multicultural diversity and our programme of Englishspeaking social and cultural activities.

We invite you to discover more about us and the ways we can offer you a unique and unforgettable learning and living 'Malta English' experience.

# MALTA & THE NSTS EXPERIENCE

national language in 1934 toward the end of the 164-year British rule, which came to an end in 1964 with independence. Just one year earlier, NSTS welcomed students to the country's first-ever English language course for non-native speakers.

Now known as NSTS-English Language Institute, Malta's first English language school celebrates more than 50 years of making Maltone of the world's leading English Language Teaching destinations. Throughout this time NSTS has maintained a pioneering spirit and gained respect as an industry leader and innovator.

## NSTS delivers exceptional service through expert staff

NSTS teachers are all qualified and hold recognised qualifications such as TEFL Cert, CELTA, DELTA and University Degrees in English. Moreover, the NSTS – English Language Institute was the first in Malta to be recognised as a Cambridge Centre and internationa teacher training centre. Non-academic staff is also highly trained to ensure a holistic educational and social experience for our learners and especially for the well-being of our young learners. One must also highlight that at NSTS we keep class sizes small\*, guaranteeing increased student-teacher time and a more personal learning experience.

## Mediterranean location & lifestyle

NSTS and Malta is your best choice for learning English abroad. In the past 50 years over 1.25 million learners have been welcome to our unique Mediterranean archipelago. Learning English has become a major part of Malta's buoyant tourism industry. Malta is also recognised internationally for its strong economy and as a centre of excellence for business.

Located south of Italy in the heart of the Mediterranean, Malta comprises three distinctive islands, each a unique destination in itself. Location, lifestyle, and an extraordinary cultural heritage and history dating back 7000 years to early civilisation, all make Malta an ideal destination.

Malta offers the best climate within the European Union, from sunny winter days to summer paradise, when the islands become a playground by the sea. NSTS offers an extensive extracurricular calendar focused around water activities, culinary excursions, and a cultural programme engaging with the creative community and events, including festas, concerts, and festivals.

#### Friendship & hospitality

Malta boasts a small population with a big heart. Family, hospitality and quality of life are core values. The Maltese are known for their generosity and openness to friendship and hospitality. As a truly bilingual nation, the Maltese are always up for conversation in English. All these qualities add up to make Malta a safe place in which to be.

At NSTS
we keep class

## BEYOND THE CLASSROOM

NSTS recognises the importance of experiencing Malta beyond the classroom, by meeting people and having fun. For the young and especially those on long-term courses, an international experience can be somewhat daunting, which is why NSTS offers 24/7 emergency support to all its learners as well as pastoral care and mentoring to its long-term students.

NSTS's approach is that every experience has learning value, with the experience outside the classroom being just as important to the learning equation as the quality of the lessons and the teachers themselves. As an added bonus, therefore, and outside of formal class time, all students have access to an extensive programme of social

and cultural activities and excursions developed and organised by NSTS staff, some tailored to specific courses. It's a great way to practise your English while taking in Malta's vibrant lifestyle and rich culture, ranging from the very contemporary to prehistory dating back some 7000 years.

## ENGLISH COURSES FOR ADULTS

NSTS English Language Courses for adults are designed to improve everyday use of English in a social or work setting. Over a period of weeks, you will develop greater skills and confidence in English grammar, vocabulary and fluency. All courses incorporate formal classroom conversation and interactive lessons involving role play, and working in pairs and groups with learners having the option of augmenting their core course with top-ups or individual tutoring.

Learners also have access to a free weekly Focus Workshop where they can refine their pronunciation and grammar skills through group work, set tasks and

INTENSIVE GENERAL ENGLISH

Classes are in small groups with an average class size of six learners and a maximum of eight, to make the most of teacher-student interaction and the opportunity to practise speaking. Lessons based on everyday topics focus on the four language skills (speaking, listening, reading and writing), developing fluency and skills and confidence in English grammar, vocabulary and pronunciation.

Moreover, learners taking 30 lessons or more have the option to take 10 lessons per week in either General English or as Themed English Lessons with each theme repeated once in each eightweek cycle.

exercises, and selfstudy. The workshop's focus alternates each week, between either pronunciation or remedial grammar. Registration is required, and participation is open to all levels.

As an added bonus, and outside of formal class time, all students have access to an extensive social programme developed and organised by NSTS staff, and tailored to each course to further build on what is learnt in class. Practise your English while taking in Malta's vibrant lifestyle and rich culture, from the very contemporary to prehistory dating back some 7000 years.

#### **KIDS ENGLISH CAMP**

NSTS leads the way in providing fun-filled, English learning holidays for children. Our young, highly-trained teachers exude patience and creativity, enabling young learners to use the English learnt at school. Our young learners open up and begin using the language with confidence following weeks of games, songs and stories with NSTS. This congenial atmosphere spills out of the classroom and into the residence where kids play games, and share their talents and experiences with peers from many different countries. All activities outside of class time, such as outings to the country, the beach and cultural events, are supervised by our trained NSTS 'Animateurs'.

In the evenings kids can watch DVDs, play games, go for walks, and enjoy other activities suited to their age, until it is time for lights out. While the kids are accommodated exclusively at NSTS Residences, alongside and under the watchful eye of NSTS Animateurs, a child's actions and behaviour remains vested in their parents. Activities offered outside lesson time include treasure hunts, water games, evening BBQs, dance classes, sports, swimming and indoor games. These camps are conducted during holidays, over the Easter period and in summer.

#### **TEENS ENGLISH ADVENTURE**

The NSTS Teens English Adventure programme draws out the adventure-seeker and the studious in every student. English-speaking skills acquired in the classroom are practised during activities and excursions led by trained 'Animateurs', where students explore and discuss the beauty and riches of places like Valletta, Mdina, The Three Medieval Cities, the villages of the South, the Limestone Heritage, Dingli Cliffs, Gozo, and more. Students take excursions to the country during mid-term and Easter holidays, and in the summer it's the beaches for sunbathing, swimming, canoeing, snorkelling and other watersports.

Each day is a mixture of classes and events of three to four hours' duration, with a minimum of 17 sessions per week. This gives students over 16 years of age free time to use as they like, and for younger students, time for additional supervised

Evenings in Malta offer an abundance of social activities like dancing, dining, beach barbeques, bowling and karaoke, as well as live theatre and music

Students can stay at our fully-supervised NSTS Residences, or with a host family.

**INDIESTYLE™ SUMMER ENGLISH** 

Designed for young adults who wish to learn English as well as to experience Malta's Mediterranean lifestyle to the full and more independently, hence INDIESTYLE™. This course takes a somewhat more casual approach but still focuses on practising the four language skills and developing greater confidence in English grammar, vocabulary, pronunciation and fluency through selected texts, celebrating the spirit of life of a Mediterranean summer.

## **SCHOOL GROUP PROGRAMMES**

Unique programmes for school-age students which combine learning and vocation with travel and cultural immersion. NSTS and the European Union both recognise the benefits of mobility programmes for young people at school – the European Union offers a targeted incentive programme. Malta is a popular European destination, largely because it is English-speaking, has 7 millennia of history to explore, a reputation for friendliness and hospitality, and is a safe environment for students.

NSTS is a top choice among school teachers organising school groups not only because of its flexibility in meeting and often anticipating their needs and those of its

students but also for the educational excellence of the programmes. The NSTS School Groups Manual is available on request to facilitate the work of agents and school teachers organising a school trip with NSTS. allowing them to customise the programme at will. The NSTS Campus Residence has been purposefully designed to accommodate the needs of school groups in a cost efficient manner, giving special attention to safety while providing the space necessary for the students to mix and share experiences. Alternatively, students can be accommodated with host families, allowing them to experience a different culture in a more intense

A popular, classic stay for school groups. Students can either have morning or afternoon lessons in English conversation in the classroom, and continue to practise in their free-time or during one of the many possible activities including outdoor adventures, water activities, visits to heritage and cultural sites, as well as social and cultural events and activities. Teachers have the option of reserving less class time and more structured site-seeing, like visits to places of production in local industry. Lessons can also be tailored to a particular theme or school project.

## ACADEMIC PROGRAMMES

NSTS - International Academy was set up to provide general education programmes to international students who desire to study in an English-speaking environment. These programmes are intended for the motivated student.

#### **ENGLISH EDUCATION FORMATION**

Malta operates under the British system of education by virtue of the long period during which it was part of the British Empire. Under this system, Maltese students undertake five years at high school, followed by two years of senior high school to gain entry to a university. With English being one of Malta's official languages, teaching is in English. International students can join any grade, from age 11 years and up.

Prospective students should have a sufficiently high level of spoken English, at a minimum of IELTS 5.0 or equivalent and may be requested to provide appropriate certificates attesting to such proficiency. Interviews are conducted (via Skype) between April and June and studies generally begin in late September. If a student's English is not at the required level they would need to undertake an intensive 3 month course, beginning in July, with NSTS – English Language Institute.

#### **HIGH SCHOOL**

NSTS – International Academy has a formal agreement with select locally-registered High Schools which gives international students a rare opportunity to live in Malta and attend school. Acceptance is based on available space, and a minimum age of 11 years or completion of six years at junior school. The applicant's grade for admittance will be dependent on a reference from their current school.

High School subjects include English, modern languages, mathematics, science, social and environmental studies, physical education and optional subjects, as well as extracurricular activities like sport, gym, art, theatre, and class activities focused on personal development.

Students are expected to attend High School every day; however it is possible to substitute particular subjects with other studies. At the end of the scholastic year students are awarded a written testimonial reporting on work completed and academic achievement.

#### SENIOR HIGH SCHOOL

In the Maltese education system Senior High School builds the foundation for entry to university. During this time students also prepare for the English 'A-level' examinations, or equivalent, required for entry to an English-speaking university.

Students can decide on their own course of study by selecting any two subjects from the following groups:

- English and a European language
- Accounting, economics, computing or pure mathematics;
- Pure mathematics, physics, computing, chemistry or biology, together with four other subjects chosen from the humanities, commerce and the sciences.

Programme participants mix with students the same age and participate in the many additional social activities designed to help make your English-speaking education complete and enhance personal formation.

#### UNIVERSITY FOUNDATION IN ENGLISH AND BUSINESS **STUDIES**

The University Foundation course is a two-in-one formula which effectively saves one full year of study making it a highly cost-effective solution. Students with this certification are eligible to apply for a place in a first year undergraduate degree course in Business Management, at a number of English speaking universities worldwide. Your NSTS teacher will advise and assist with the application process at any of these universities.

This course is divided into two components: General English with Exam Preparation and lectures in specific business subjects at introductory level. The initial part of the course concentrates on General English with focus on the four language skills (speaking, listening, reading and writing), and on grammar and vocabulary. The Exam Preparation module prepares the student for the internationallyrecognised IELTS exam.

The latter part of the course focuses on four business subjects at introductory level in Business, Qualitative Methods, Business Communication and Accounting in preparation for the ABE examinations. Success in these examinations grants the student the ABE Diploma in Business Management which is a Level 4 award of the European Qualifications Framework. This programme requires dedication and ten to fifteen hours per week of self-study.

## **TEACHER TRAINING**

NSTS offers two key qualifications within the international teaching profession – Language Awareness and Communicative Methodology, and CELTA (Certificate of English Language Teaching to Adults), the key to teaching English worldwide. NSTS has been a centre for teacher training for the past 30 years and was appointed as a CELTA training institute by the University of Cambridge in 1994, and is now a recognised leader in delivering this course.

NSTS is also one of Malta's leading teacher training institutes. As well as offering TEFL (Teaching English as a Foreign Language) Certificate courses year-round,

#### **LANGUAGE AWARENESS AND** COMMUNICATIVE **METHODOLOGY**

This course focuses on both English language and teaching methodology. The two main objectives are to deepen awareness of the nuances of the English language while building on existing skills, and exploring current methodologies and best practice in teaching English to non-native high school students, ultimately keeping teachers abreast of change and advancement in their profession. This is a two week course which provides professional development for English teachers in mainstream high schools. Participants are eligible for funding through the EU Commission's Comenius/Grundtvig 2.2 grants.

## ACCOMMODATION

NSTS offers a range of accommodation to ensure the comfort of all students and travellers. Learners can choose one of NSTS's own properties - NSTS Campus and NSTS Hibernia – for the experience of staying alongside fellow students from all over the world. Both are located within walking distance of our schools. NSTS accommodation provides a contemporary, social environment for the young independent traveller. For those seeking full immersion in daily Maltese life NSTS will also accommodate you with one of its many host families for the Family Stay option.

#### **HOMESTAY / HOST FAMILIES**

This unique accommodation option highlights the spirit of hospitality which characterises the Maltese people. NSTS officials personally visit and interview each host family before approval and keep regular contact to ensure you have the best possible stay. Guests are hosted on half-board meaning breakfast and dinner are provided – with the latter most likely to be a typical Mediterranean-style meal with Italian influence. Families regularly host up to four English learners during peak times and provide shared facilities. Laundry facilities are available upon request. Executive homestay / host families are available on request.
